the league. "There is no question," says Mr. Gunnels, "but that a good league can be organized with Toledo, Wheeling, Dayton, Springfield, Hamilton, Findiay, Canton-Massillon and Akron in the circuit. Of Course this would be subject to changes it improvement could be made. I am doing all I can and hope to make it a success. We will have a good park here in Toledo right in the heart of the city for week-day games, and a good Sunday park with avery, convenience where there will be no danger of interference; and there is no question but that the people would take an interest and the attendance would be large."

clubs.

In the event that Wheeling is so unfortunate as to be shut out from a senson of professional base bull in a good league, there is a strong probability that an amaieur of semi-professional league will be organised with one or more teams in Wheeling and a team each in some of the following towns: Barnesville, Sistersville, Martins Ferry, Bridgeport, Bellaire, Fairmont, Mannington, Steubenville and Moundsville. With practically no salary list such an organization would be financially successful and would appease the appetite of the ball cranks. However, the organization of this league would be only in the event that professional ball is not a go here.

Gladness Comes

Gladness Comes
With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentleefforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of cickness are not due to any actual disease, but simply to a constipated condition of the aystem, which the pleasant is of the aystem, which the pleasant is the pleasant in the pleasant is the pleasant in the pleasant is the property of the aystem, which the pleasant is the control of the pleasant is the property of the pleasant is the property of the pleasant is the concerned which promotes internal eleanliness, without debilitating the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co, only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative then one should have the best, and with the well-informed everywhere, Syrupet Pigs stands highest and is most largely used and gives most general antisfaction.

AN OIL FIGHT.

Stockholders of the Hunter Oil Company in a Family Quarrel—An Injunction Re-straining Sale of Stock—A Combine At-

The Hunter Oil Companyls made upor Wheeling people, who were among the first to get in on the ground floor at the first to get in on the ground floor at the commencement of the boom back of Waverly, down in Pleasants county. They got a nice block of leases and have a producing well on the Hunter farm in the midstof developments in the new field. It seems that their good luck has resulted in a "family quarrel" as to the policy to be pursued in developing the territory, culminating yesterday in the issuance of an injunction by the circuit court, forbidding the board of directors from issuing lifteen additional shares of stock at \$125 per share.

additional shares of stock at \$125 per share.

It seems that three gentlemen formed a combine for the purpose of obtaining control of the company by securing a majority of the capital stock. The "big three" bought out for \$3.00 one man who held eight and one-half shares, or at the rate of \$500 a share. As there are fitty shares, this makes the worth of the company's holdings about \$30.000. It seems that the board of directors heard of this purchase of stock, which was just enough to give the "big three" control, so they at once set about to prevent it. Monday night the board held a meeting and passed a resolution for the issuance of fifteen additional shares of atock at \$125 per shares. These shares were quickly gobbled up by friends of the anti-combiners yesterday morning.

The result is that the "big three"

gobbled up by friends of the anti-com-biners yesterday morning.

The result is that the "big three" found they were far from being in the saddle. There was consternation in their camp for a time, but the legal fra-ternity was given an innings, with the result that an injunction was applied for and granted in the circuit court, re-straining the board of directors from is-suing the additional block of stock. The case comes up for settlement on the 15th of this month and will attract great interest in oil circles. In the meantime the stock has already been issued and the "anti-combiners" are in control.

THE REED WELL

In the Waverly Field Did Not Come in Yesterday as Expected. Mr. Charles E. Van Keuren yesterday

returned from the Waverly oil field down the river, where he was looking at down the river, where he was looking at the properties in which he has an interest. He expected to witness the coming in of the well of the Reed Oil Company, on the John Janes tarm, near the "Preachers" well, but did not. Just at the top of the sand yeserday morning the tools were lost and the well will not probably be in before the end of the week. The owners of this well, most of whom are Wheeling people, expect to make a good strike on the Janes.

Will "Shoot" Again

The Bridgeport Oil and Gas Company will shoot their Hille well, on Archer's Fork, again to-day. The first shot in this well by a miscalculation in measurement was exploded about six feet below the pay streak in the sand and did no good. Better results are expected from the shot to-day.

That Limestone Well.

The Well of the Royal Oil and Gas Company, at Limestone, in Marshall county, mention of which has been made, has been cased with 6½ inch casing and is now drilling at a depth of 7,200 feet. The pay/sand is expected to be reached at 1,500 feet or less.

SKATING IS UNSAFE

Hundreds of merry skaters are to be seen throughout the day and evening over on the back river now-a-days. The river is frozen smooth as glass from the head of the Island down to the backriver dam, a distance of about three-quarters of a mile. The best skating is just under the Bridgeport bridge, where Just under the Bringspoir broad, where the largest crowds congregate. Everybody Talking About It.
Everybody is talking about the great free offer of Dr. Greene's, the most successful specialist in curing nervous and chronic diseases, and who discovered that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. He makes a specialty of treating patients through letter correspondence, and all who accept his offer are astonished at the marvelous success of this method. His office is at 35 West Fourteenth street, New York City, where he receives and carefully examines every letter sent to him by persons describing their case and telling him their symptoms. After thoroughly studying each case he answers the letter, explaining the cause of each symptom and telling a sure way to get well and strong. His makes the patients understand exactly what alls them and tells them all about their complaint, and all this is entirely free of charge. They may be expense of a trip to the city, have no fee to pay, and have the benefit of the best medical advice and consultation. Here is an opportunity for you to get well, reader, you can either accept or reject it. Which will you do?
